It is important for footballers to be competing at the best level they can in order to progress & grow. The focus at the Cleva 6 Program is to create a professional learning environment for players to express their confidence, creativity & CLEVA skills. Players will be working with similar age and ability levels. We will provide weekly or fortnightly sessions for players to showcase their talents. We have limited places of 6 players max per group and will offer these to players who excel at grassroots level and are ready for that next step. All our staff have been through this process as players and coaches therefore are the best mentors for your child's development. I hope you find your CLEVA journey a positive one and look forward to welcoming you at your session.
